CITY FATHERS DO LOTS OF BUSINESS

Five New Ordinances Introduced—A Steam Fire Alarm Whistle Arranged

The board of city trustees met in regular session last Monday evening and transacted the usual routine business. Few bills were paid outside of the electric light bill on account of a lack of funds.

Five new ordinances were introduced as follows: Requiring church societies and other bodies furnishing meals and refreshments for pay (except people engaged in and conducting a regular place of business and paying a license therefor) to take out a license for each day that such meals are served.

An ordinance requiring an annual license for garages.

An ordinance requiring every person riding a bicycle between sunset and sunrise to have on his bicycle a lighted lamp, and to have a bell or signal at all times.

An ordinance revising and amending the town law relating to the pound and animals running at large, and repealing the present pound ordinance.

An ordinance prohibiting the running of automobiles and motor cycles on the road leading to the fish hatchery.

An ordinance prohibiting the giving away or selling of fire crackers and explosives of all and every kind.

An arrangement was entered into whereby the Steam whistle at the ice plant will be used as a fire alarm. Signals will be arranged so that the fire department will know where the fire is located.

Two bids for the old defunct electric light plant were received. The highest was from Max Silverstein, of San Francisco, for $1700. The board have the matter under consideration.

Permit granted F. Grondorf to put an oil tank under the sidewalk.

Permit granted the Commercial Bank to erect a new building.

Board adjournd till Monday evening when the proposed new ordinances will be disposed of, also the electric light plant.

At the next meeting of the board of city trustees an ordinance will be introduced organizing the fire department under the statute passed at the recent session of the legislature. Committees from the fire department and the board of trustees have been appointed and are getting the matter in shape.

RIVERSIDE A POPULAR RESORT

A Pleasant Stoppting Place With Many Attractions

The editor of the Dispatch in company with some friends took a little run out to Riverside last Sunday and spent the day with Pete O'Neil and wife who are running the resort this season. It is certainly a very pleasant place to stop and the fishing in the near by streams is excellent. The meals at the resort prepared by Mrs. O'Neal are simply great and no one ever goes away hungry. Pete makes a good landlord and is popular with the traveling public. The resort will be a popular place this season. The swimming pool in the river is splendid. The dance hall is also a nice addition to the resort and frequent dances will be given this summer. The road from town out there is in good condition, as is also the one over to Calpella and from Calpella into town.

Will Contest Will

Charley Hurt returned from the city this week. Mrs. Hurt is the daughter of the late G. Scudamore, of Lakeport. At his death Mr. Scudamore left a deed or will that some of the children claim was not equable, and three of the children have instituted a suit for a partition of the property and Mrs. Hurt is among this number. The estate was supposed to be worth $50,000, and there are seven children, so Mrs. Hurt will probably received something like $7,000 if the contest is successful. C. M. Crawford represents the Lakeport heirs and J. W. Preston, famous as a will breaker, represents Mrs. Hurt.

TEACHERS' ANNUAL CONVENTION WEEK

An Interesting and Profitable Session Is Held. A Splendid Exhibition of School Work. Ukiah Lavishly Entertains Honored Guests. City Decorated For The Occasion.

Ukiah has been captured by the school ma'ams and it was an easy capture for "Barkus was willin." The birch wielders began to arrive with their band boxes, valises and trunks the latter part of last week. When the array of feminine loveliness had all arrived and brushed up, put on their "rats," "tub" hats and Princess gowns, there was nothing to it. Ukiah surrendered and came into camp and turned over to the visitors the keys of the town and a cart blanche order to do as they pleased.

There are 169 teachers in attendance, a number of trustees, and a few love sick swains who just could not keep away. Of the 169 teachers, some 25 are men, so it is no wonder that Ukiah capitulated so soon. The town has virtually been turned over to the visitors and everything has been done to entertain the distinguished guests during their stay with us. The Ukiah teachers and the friends of education here generally have been working day and night to make the social side of the gathering a success, and they have succeeded admirably.

The reception and entertainment committee, of which Miss Jessie Standley was the active chairman, assisted by Misses Margaret Smith and Myrtle Jennet, has been at work early and late to see that every detail of the work was attended to properly. All the other committees have also been busy and none have shirked any of the responsibilities. So the affair has been a decided success.

The town was illuminated in honor of the occasion. The dome of the court house was lit up with electric lights producing a very pretty effect. The various halls where the teachers met and the rooms where the exhibits were placed for inspection were suitably decorated.

The sessions of the institute were held in Cleland's hall and in the court room in the court house. Superintendent Babcock was president and M. H. Iversen, F. D. Patton and C. D. Flowers acted as vice-presidents. Miss Ada Banker was secretary, assisted by Misses Luella Gray, Lydia Mankins and May Woeffel. The instructors from abroad were Alexis F. Lange, of the University of California, Edna T. Cook, of San Jose, and F. A. Kent, of Stockton. Each of the instructors was an authority on the subjects discussed, and all were pleased with the method of presentation.

"The Question and Discussion" period was interesting and productive of much practical good. This was a free for all field day for the county teachers and many new methods of handling difficult subjects were suggested. Among those who took part were Noel H. Garrison, Mrs. Mabel Farnum, Mrs. Eliza Veeder Dow, and others.

The success of the institute is due in a great measure to the untiring efforts of Superintendent Babcock who has tried to arrange his institutes in such a systematic way as to cover definite lines of work and thus complete the course of study in a given period. The wisdom of such a policy is manifested by the work accomplished in the school room during the interval and also by the immense amount of work on exhibition. Never have the schools been in such a healthy condition. The Superintendent is more than pleased with his corps of teachers and says that they are doing the best work in the state. He and his teachers are in perfect accord, and the progress made must be a source of satisfaction to all concerned. A master hand is at the helm and if you want to know who is boss, just start something.

THE EXHIBITS ARE A MARVEL

The exhibits were placed in the Christian church and in the old post office building, the high school exhibits being in the latter. The exhibits far excel anything of the kind ever attempted in the county and are a marvel as to what children can be taught to do and to do well. It would be a grand object lesson if every parent in the county could see this splendid array of school work. In addition to training the eye and the hand the time spent at such work has a practical benefit, as in the advanced grades useful articles are made.

The work done in drawing by the high schools would be a credit to an art school, thus showing that all can be taught to draw and write accurately. It is just as easy to do anything right as it is to do it wrong, if one begins right. Ukiah, Willits, Fort Bragg and Mendocino certainly have some elegant exhibits. So remarkable were they that a number of outsiders were attracted hither and spent hours looking at the work. All of the work was good, but the display of work by Fred Neipp, of Ukiah and Wm. Hyman, of Fort Bragg, attracted most attention. Some of the mechanical drawings would do credit to a professional architect or draughtsman. All of the work was good but space prevents a more extended mention.

The primary and grammar grade exhibits occupied all the available space in the Christian church. They were an eye opener as to what children can do if properly directed. Honors were about even between Ukiah and Fort Bragg as to the amount of work on exhibition. Ukiah occupied nearly all of the south side of the church while Fort Bragg had the north end. The work was all creditable and attracted much attention. There were specimens of weaving, sewing and general handiwork. The Indian baskets were the subject of much favorable comment. They were made by the Ukiah primary grades. The manual training work and the map work of the Ukiah school stood out in bold relief. Some of the wood work would make a jack leg carpenter ashamed of himself. The physical maps of the seventh grade, Miss Jessie Standley teacher, were the assence of solid groundwork in geography. The drawings, note books, and papers of the other grades were all excellent. All of the teachers had good exhibits.

Fort Bragg and Mendocino had work characteristic of the coast section. The polished redwood from Mendocino by Victor Ramus and the carved wood work by Willie Valadao was the subject of much favorable comment. The Fort Bragg wood work, story covers, and baskets, manual training and papers were all excellent. The fifth grade was especially creditable.

The large towns did not have all the good work by any means. Some of the rural districts had exceptionally good exhibits. Alpine's maps carved on wood were tasty affairs. The original drawings of Wanda and Meta Hiatt, of Yorkville, W. H. Adamson teacher, were always the center of an interested group. A country or object was drawn in the shape of some animal its outline suggested. The product map of Farley district, Miss Inez Metcalf teacher, was also an object lesson as to a practical way of teaching geography.

Everyone was delighted with the work on exhibition, and a number asked Superintendent Babcock to send the best to the Alaska-Yukon Exposition and place it among the educational exhibits. This will probably be done.

RECEPTION TO THE TEACHERS

The reception and banquet given by the teachers of Ukiah and vicinity to the teachers last Tuesday evening was one of the most successful events of the season. The teachers were prompt in arriving and soon Odd

AN AUTOMOBILE ACCIDENT

Joe Antrim Goes Over the Grade and Breaks Collar Bone

When returning to Boonville last Thursday from Greenwood, Joe Antrim met with a severe automobile accident on the grade about three miles from town. The steering gear refused to work and the machine went over the grade and pinned Joe against a fence.

Dr. Diddle, who was with Antrim in the machine, escaped uninjured and finally with assistance, raised the machine and rescued Joe and took him back to Greenwood. NEWSY ITEMS FROM WILLITS

Interesting Budget of News From Our Northern Corrspondent

Willits, May 4—Friday night the railroad boys gave their third annual ball at Hotel Willits. The hotel office and dining room was decorated with festoons of red, yellow, white and green crepe paper and flags of these same colors were strung in strings throughout both rooms. Besides these they had a head light from one of the engines and for several dances the electric lights were turned off and the head light turned on, which gave a most pleasing effect. This was probably the best dance the boys have ever given here—and that is saying a great deal. Joe McCormick was floor manager and did the honors in a most creditable manner.

Raisin Day was observed here in the most appropriate manner. The stores all had fine window displays of raisins and made a special price. We are informed that they sold as many raisins on this one day as they usually dispose of in an entire year. Young America is still eating raisins for the stock was too much for one day.

Friday night the general fire alarm brought out three of our companies. The fire was at Mr. Van Bibber's home on Coast street and was caused by a defective flue. Over 1000 feet of hose had to be laid before the water could be turned on and all that was saved was the household goods and adjoining buildings.

S. K. Fitzhugh came up from San Francisco last week to inspect the construction outfit that is still stored here. He is the gentleman who had charge of the railroad construction work here two years ao. It does not look very favorable for a resumption of railroad work this year.

Several real estate deals were made here last week. Roth and Goldberg sold the Hoover ranch to B. G. Jones of Sacramento, and S. P. Beattie sold two lots in the Baechtel Grove addition to J. C. Duffield. Mr. Beattie also purchased the P. H. Taylor property on South Main street.

Will Ornbaun came down from Round valley on business Saturday. Bill is foreman of the Hop and Barley ranch in that valley and he tells us that they have 173 acres of as good hops as can be found in the state and he expects to pick at least 1000 bales this year.

Items Gleamed From the "Beacon" For Our Coast Readers

Everything at the Point Cabrillo light house and fog signal is almost in readiness to be turned on. There is some routine to be gone through first, however, and that may require forty days or two months.

"Jack" Philbrick was in town Tuesday. He has just finished opening up the Low Gap road to travel to Ukiah. The road is said to be in fine condition now and it is expected that this stretch will catch most of the auto travel, as it is smoother and the hills are not so high.

The Caspar Lumber Company's steamer Samoa loaded 13,000 and some hundred ties at Little River Thursday. These ties go to San Diego and are part of a cargo which W. B. Coombs is filling for the railroad to Imperial. It is said that the number of ties sold by Mr. Coombs on this contract amounts to 60,000.

Rumor says that a few miles of railroad will be built up Greenwood creek this year in order to tap a large body of timber owned by the company in that vicinity.

The Albion mill was started up yesterday and will be run today to try out the belts and new machinery. The full crew of men will probably be put on Monday and the regular operation of the mill will begin at that time. The mill was practically rebuilt and is now, with the additional new machinery and many improved methods, of handling lumber, one of the best mills in the state.

The south side force went to work at the mill Monday. The new set works, which Mill Foreman Knight has just finished putting in and which represents the latest and most expensive carriage mechanism made, works beautifully. A complete new carriage and 84-inch head blocks were put in, together with a new 12-inch steam feed to replace the old 9-inch feed.

William Lukes, late superintendent of the Stearns Lumber Company plant at Wendling, was here a few days ago. He has arranged with A. Brown to operate the latter's mill at Point Arena this year. Mr. Lukes has gone to San Francisco to secure a new edger and some additiona machinery, and hopes to start the mill in a short time. Mr. Lukes is a practical sawmill man and millwright. He designed and built the Wendling mill and it is a model for convenience and the economical handling of lumber. It is to be hoped that the lumber market will justify this step taken by Mr. Lukes.

NEWS ITEMS FROM ANDERSON VALLEY

Boonville, May 4—The entertainment given by Mrs. Finney and the Boonville girls in Antrim's hall last Saturday night was well attended and netted the neat sum of $30 towards paying salary of Rev. J. E. Bailey, pastor of the M. E. Church, South. The program rendered was an interesting one and was supplemented with refreshments at the close.

Quite a delgation of school teachers from the coast points reached here Sunday afternoon on their way to Ukiah to attend the institute. They were accomodated at the hotel over night and left Monday morning to resume the trip.

Joe Antrim our leading merchant and Dr. J. F. Diddle narrowly escaped with their lives on returning from Point Arena in an automobile last week. In coming up a steep grade one of the wheels suddenly collapsed and caused the machine to turn turtle sending Dr. Diddle into the air and over a picket fence where he turned a sumersault three times and at last landed on his feet with only a few bruises. Joe did not fare so well. He and the machine got mixed up together resulting in severe, but not serious bruises in his shoulders and ankles. Both Joe and the Doctor remained over at Greenwood for a couple of days to get doctored up. They reached home Saturday and Joe is around with his leg in a sling and is all "bunged up." The third party in the accident, the auto, was put entirely out of commission and hauled by team to a repair shop at Greenwood. Sub.

Elk, May 3.—Little was known here what the recent visit of F. C. Drew the President of the L. E. White Lumber Company and his general Manager E. B. Salsig's mission was until today. Four months ago R. J. Smirl superseded Sam McCanse as superintendent and today the great woodsman will be placed in full charge of the works as before. To superintend the lumbering on Elk and Alder creek on a paying basis is a hard proposition and the share holders have now well learned the value of Mr. McCanse's services. There will be considerable changes made in the line of economy. Mr. and Mrs. H. M. Shaw of Oakland have moved up here and Mr. Shaw will be the mill tally man.

The young folks enjoyed themselves immensely here last night by tripping the light faustastic. The violin was made talk by Tom Talus. J. R. T.

Two doctors, graduates of Bristol, England, have located at Gualala, one permanently and the other for the summer.

J. C. Lane, E. Bishop and B. N. Campbell have been viewing a road and locating a site for the proposed new bridge across Alder creek this week.

Seldom has the grip had such a swing on the coast as at present. The majority of our people are sufferers. The same condition seems to exist all along the coast.

William Lukes was here since our last looking at Albert Brown's saw mill. He concluded to lease the plant and buy the stumpage. Mr. Lukes has been superintendent of the Wendling mill for several years, and ought to understand his business. He went to the city to purchase a donkey engine and expects to have the mill running soon.

John Pelegatta died at the home of Ben Berri Saturday night. He met with an accident at Del Mar about a year ago, receiving injuries from which he never recovered.

Horses Lost

I have lost from the Bill English ranch in Redwood valley one cream colored mare, 16 hands high with white mane and tail; one black horse with white spot in forehead and one white horse colt, one bay mare, 15½ hands high with large scar on top of neck where color rests. They may have strayed into Potter valley.

One on the Court Jester.

Timon of Athens had just been married. As he wafted down the aisle of the chapel with his bride the court jester cried:

"Wait, Timon. I would have a word with you."

The misanthrope turned. Here was the one chance of his life for a quip.

"Timon tied waits for no man," he said. "There, now; I'm square with you." And he drifted out the portal.—Exchange.

The Ukiah Cloak and Suit House is an exclusive house for Ladies' ready-to-wear garments, consequently we carry a large stock, as great an assortment as any exclusive house in San Francisco. We carry a better class and more up-to-date garments. We buy from the best houses and factories. We have the pick. We get better values because this is an exclusive house and uses more goods. Our prices are the lowest in the state. Most of our garments this season were especially selected by an expert resident buyer in New York and we can show bills and letters to prove it.

Bear Flag Pioneer Honored

The Kelseyville, Lake county, parlor of Native Sons, has presented to Henry Beeson, of Boonville, this county, a gold badge in honor of the fact that he is the only survivor of the historical Bear Flag party. Mr. Beeson was not only a survivor of this memorable old party but was a pioneer of Lake county before the massacre of Stone and Kelsey. He lived at Boonville for a third of a century and still makes his home there.

The pianos to be used for the recital to be given by Mrs. Butterfield in June are being tuned and regulated by J. M. Harlan, who has been tuning regularly for these recitals since 1894. Mr. Harlan says he does not know of any town that will equal Ukiah for its musical talent and appreciation. Every effort is being made to make this inter-state musical a success.

To Subdivide Daw Ranch

Surveyor Randall left for Hopand this week where he has secured the job from the government to subdivide the Daw ranch up into 40 different lots for the Indians. The Daw ranch is located in McDowell valley and comprises 360 acres and was recently purchased by the government for the Indians. Mr. Randall is just the man that can do the job up to a Queen's taste all right, all right.

Some Good Road Work

Supervisor Smith has done some good work in the past few weeks. He has gotten over the entire district and put the roads in excellent shape. If there had only been a little rain to pack the road bed it would have made a vast difference in the condition of the roads. He has just completed a bridge across Rock creek at the head of Redwood valley, all of which is much appreciated by the residents there and those who have to travel towards Round valley.

Business and Pleasure

Supervisors Lawson, Saxon, Brandon, Smith and Gillmore are in town this week attending the teachers' institute. So far the gentlemen are very popular and are sharing the honors with Superintendent Babcock. The county fathers have taken a few minutes off each day to attend to their supervisorial duties, however.

No Rain During April

One time in the history of the county there was no rain in April, which was certainly an April fool on us. To be accurate it is the first April in 32 years that has not had rain. In 1888 there was .10 of an inch, in 1905 .10, and in 1908 .29. The maximum temperature was 89 and the minimum 32.

J. H. Cave, representing the Oakland Sash and Door Company, was interviewing some of our merchants this last week. Mr. Cave is well up in his line of business and readily makes friends. He is a brother of E. L. Cave, principal of one of the Alameda schools, and who was recently elected to the city superintendency of the Bellingham schools, Washington.

Country Folk Are Tender With Birds.

Real country folk are very tender in their dealings with the birds that live near them. In the course of my experience, extending over many years, I have never known a case of wanton cruelty occur in regard to wild birds. The laboring man, whose work so often lies far from the haunts of men, seeks companionship with the birds. Of these none is more friendly than the robin, which is sure to appear, however lonely the place. — Cornhill Magazine.

Force of Habit.

"I wish, John," said the editor's wife, "that you'd try not to be so absent-minded when we are dining out."

"Eh? What have I done now?"

"Why, when the hostess asked you if you'd have some more pudding you replied that owing to a tremendous pressure on your space you were compelled to decline."—London Tit-Bits.

A Cure For Insomnia.

Next time your slumber fails to arrive on schedule time cast all thought of sleep from your mind and start in to make to yourself all the friends you have had or now possess. It's much more interesting than counting sheep. Perhaps you have only one friend, but one is enough—he may be the more appreciated. Just think of how you came to know each other, of how the friendship developed and of the happy incidents that have marked your acquaintance. Or, if you have no earthly friends whatever, let your thought dwell upon the great Friend of the friendless and how you came to know him. Somehow the most precious of our earthly friendships seem poor compared to this one that distance and time and even death itself cannot sever. And there is one advantage in this attempt to defeat insomnia—even your wakefulness will be enjoyable and restful.—Interior.

True Oratory.

"True oratory," said a statesman, "is that which brings results, is that which converts an audience of enemies to an audience of supporters. Such oratory is rare. I have a friend whose wife, a 'suffragette,' is a great orator. Her speeches from the platform are wonderful, and her husband the other day gave me an illustration of the efficiency of her private speeches.

"'An agent called on my wife this afternoon,' he said, 'and tried to sell her a new wrinkle eradicator.'

"'And how did the man make out?' said I.

"'He left in half an hour,' was the answer, 'with a gross of bottles of wrinkle eradicator of my wife's own manufacture that he had purchased from her.'"—Portland Oregonian.

TEACHERS' ANNUAL CONVENTION WEEK

Fellows' hall was crowded with the honored guests. So well was the affair arranged there was not a single wait from start to finish. The Misses Jessie Standley, Margaret Smith and Myrtle Jennet were the committee on reception and it is to them that the success of the banquet is due. Each teacher was tagged with her name and in that way they soon all became acquainted. The teachers upon entering were met at the door by a committee of normal girls and presented with a bouquet.

The program was short but sweet. Phil Joseph favored the audience with two solos in his pleasing manner, Mr. Van Dyke accompanying him on the violin. Miss Irene Hildreth, whom all love to hear, recited "Old Ace," Vincent Giorno sang the Gypsy Love Song in his deep bass, Miss Hazel Herschel sang a negro lullaby in her inimitable manner, and Simpson's orchestra rendered some pleasing selections.

Upon entering the banquet room a pretty sight greeted the eye for the decorations and arrangement were beautiful and tasty. Miss Standley deserves great credit here as she had charge of the work. The beautiful effect was a reflection of her excellent taste. The tables were covered in green cheese cloth with fish net over them and interlaced with pink roses. From the chandeliers hung four fish poles crossed, with chinese lanterns on each end of them. From the edge of the ceiling down the walls were hung fish baskets profusely filled with pink roses, producing a beautiful effect. The floors were covered with handsome oriental rugs, making it as cosy as a parlor. Ice cream and punch were served and from the way the crowd stayed and from the amount of chattering done it was quite evident that all had enjoyed themselves.

AN EVENING ON THE PLANTATION

On Wednesday evening the teachers were given complimentary tickets to "An Evening on the Plantation," given by the Organ Circle of the M. E. Church, South, under the direction of Mrs. J. B. Sanford.

The hall was decorated for the occasion and presented a typical plantation scene. The hall was darkened and the program was begun by the singing of "Dixie Land" and then the lights were turned on and there was presented to view about 40 of Ukiah's best songsters, all dressed up as darkies. They certainly acted the part and would have made a real negro ashamed of himself. It was one of the best and most novel entertainments ever given here, and all acted their parts well. The chorus singing was grand and reminded one of the cotton fields and levee dances down on the Mississippi. There were a number of solos, quartets, and recitations, all in negro dialect. The singing of the "Louisiana Lowlands," "The Old Kentucky Home," "Good Night Pickaniny Mine," "Old Black Joe," "In the Court House in the Sky," and "Oh Dem Golden Slippers" was soul inspiring and brought forth prolonged applause. The singing of Lurline Jamison and Dorothy Thomas, as little Pickaninnies, was cute. Jessie Odle Story's recitation brought down the house, and J. R. Thomas, as official "announcer" beat a negro at his own game and convulsed the house.

After the program ice cream and cake, punch and all kinds of good things were on sale in the booths along the sides of the hall. Colored spielers and colored waitresses were the attraction during this interval of attending to the wants of the inner man and the inner woman. They were so good "it would cause a jack rabbit to spit in a bull dog's face," according to the announcer.

TO VISIT YOSEMITE VALLEY

Editors and Familys to Visit the Wonderland

Mr. and Mrs. J. B. Sanford leave early next week with the California Editorial Association for a trip into the Yosemite valley of two weeks. The association meets annually and take a trip to some favored spot.

Three years ago the editors went to Mexico and were there when the earthquake took place. Two years ago they went to Lake Tahoe and this year they go to the world-famed Yosemite and have their meeting at the charming Camp Ahwahnee. Everything in the valley worth seeing will be seen by the editors and their wives. A side trip will also be made to Wawona and the Big Trees. A description of the trip will be written by the editor upon his return, giving all his opinion of the best way to make the trip and how to spend the time most profitably while there.

Archie McClure is here a few days visiting old friends. He is located at Arcata, Humboldt county, and is doing well. He had to go to the city on a little business for his firm and took a run up here for a few days.

SUBSCRIBE FOR THE NEW DAILY

Subscriptions Are Solicited For the New Democratic Newspaper in San Francisco

The Democratic State Central Committee appeals to all lovers of a free press to aid in the establishment in San Francisco of a new Democratic daily newspaper for California.

On behalf of the party the committee has promised and has undertaken to obtain 25,000 paid-in-advance subscriptions at once. The object of this is to place the paper upon a paying basis as quickly as possible. A paid up list will enable the management to secure advertising at a paying rate from the beginning. As the price for advertising depends upon circulation the object of securing a large list at once is evident.

The price of the paper is only $3.50 per year. All money received on account of subscription will be held in trust by Judge John E. Raker, Chairman of the State Central Committee, payable to the publisher only upon the first issue of the paper.

Let the people of Mendocino county support a paper that is clean and fearless and which will fight the battles of the people. The Dispatch is getting up a subscriptions list to send in, and all those desiring to subscribe through us will kindly send in their remittance of $3.50 and their names will be forwarded to the publishers at once. Receipts will be sent to all subscribers as soon as they can be made out. Send in at once. We want as large a list as possible June 1st, the date on which the first copy is expected to be issued. The sooner you send your subscription the sooner the paper can be issued.

New Press for the Northern Crown

Mrs. A. M. Reed came up from Petaluma last week on business and to pay old friends a pleasant visit. Mrs. Reed has recently purchased a large Cranston press for the Northern Crown office and will be enabled to get the magazine out on time in future. This will be a source of great satisfaction to the talented lady as she has worked under disadvantages for a long time. She persevered, however, and now will have the pleasure of knowing that her work will reach her subscribers on time. She has increased the circulation and is independent financially. Her friends here rejoice with her in her success.

The Frost trial has been in progress since Tuesday last and will be hardly submittedd to the jury before this evening.

Squealing Charley, the only member of the town chain gang, has been serving the town in that capacity this week. Charley does not love work as well as he does whiskey consequently does not take to it kindly.

H. W. Devilbiss, of Cottoneva, while near Hatch's mill, when on his way to Ukiah, met with a misfortune by having his horse fall on him, by which he was slightly bruised up.

J. G. Foster, of Round valley, announces himself as a candidate for supervisor of the 3rd district, subject to the Democratic county convention.

Charles J. Son, who had been a citizen of this county for 27 years, died on Saturday night, agd 58 years and 7 months.

The Cloverdale stage was robbed on the up trip, securing about $200 from the Wells, Fargo Company's box.

Ukiah has been feasting a gormand this week by the name of C. L. M. Wincklemann. At one meal he ate 8 cans of salmon, 2 cans of oysters and bread and cake in proportion. After eating two hearty meals, the gormand was invited to partake of another repast and got away with the following in 32 minutes: 2 beefsteaks and one mutton chop, 3 cans of oysters, 2 cans sardines, 2 cans peaches, 1 cup of coffee, 3 cups of tea, 1 plate of pickles, 10 soda crackers, 5 biscuits, 1 dish of homony, 4 potatoes, 1 plate of cake, and 1 glass of water. A number were present to witness the performance.

FIVE YEAR CONTRACT FOR PEAR CROP

J. R. Banks Sells Output of Valley to Earl Fruit Company For Five Years

There was quite a stir in the fruit business this week. J. R. Banks, who has been selling the pear crop for the farmers for a number of years, entered into a contract with the Earl Fruit Company this week and sold the output of the valley for a term of five years for $25 per ton. There are some 29 pear growers in the valley and all signed up except a few who had existing contracts with the C. F. C. A, of Santa Rosa. This is the best price by $5 per ton that has ever been secured here on term contracts. There are about 167 acres in Bartlett pears in the valley and the output will be about 460 tons per season.

Hodghead Wins Oot

Beverly L. Hodghead was elected mayor of Berkeley last Saturday by a decisive majority. He won over all three opponents by 24 votes and by over a thousand from his nearest opponent. Mr. Hodghead was a former Mendocino county boy and is a sterling Democrat. He had the the support of the Good Government League and was opposed by the machine in ever way possible. Mr. Hodghead has many friends in this county who will be glad to hear of his signal victory. He is a brother of Dr. John L. Hodghead, of Covelo, and D. A. Hodghead, dean of the P. and S. College. He and his brother John worked on the header and thresher in this valley 25 years ago. The Hodghead family was a remarkable family and all made good by their own indomitable will and perserverance They were Virginians and were noted for their southern hospitality. Hooray for Hodghead.

Robt. F. Adams to Ida Pauline Bock.

D. L. de Fraga to Helen Quaill.

How the School Ma'ams Came Down to Ukiah

As Witnessed by J. L.

(With apologies to Southey)

John Ruddock once asked me
And moreover he tasked me,
To tell him in rhyme.
For he likes them, this chinster,
Both widow and spinster;
And once was bell wether,
And called them together
In conclave assembled,
In times that are past.
And now he dissembled
And smilingly asked
(The muse to inspire)
How it was that the schoolma'ams
Came down to Ukiah?
So I told him in rhyme,
For a rhyme-smith am I,
And once on a time
Made Pegasus fly,
How in gorgeous attire,
They came down to Ukiah.
From valley and coast
This feminine host In sheath gown encased,
And peek-a-boo waist,
Their hair stuffed with rats,
And in peach basket hats,
With scholastic precision
Burst on our vision.
Some were tall and some short,
Some fair and some swart,
Some were fat and more were lean
And others were just right, I ween.
Twould be easy every taste to suit
From the bevy of maids at the institute.
Blessed were they with perennial youth,
(And to eke out the rhyme I must say forsooth,)
Their digestions were good from the oyters entombed,
And the cream and soda that they consumed
How they enjoyed their short vacation
And plunged into pleasure with satiation.
Over the town they set up their rule,
Three hundred little maids from school.
Walking and talking,
Shopping and hopping,
Wriggling and giggling,
Wending and spending,
Sighing yet buying,
Grinning and chinning,
Bobbing and hobnobbing,
Languishing and anguishing,
Smiling and beguiling,
Primping and crimping,
Dancing and prancing, Spooning and mooning,
Filling the girls of Ukiah with envy,
Giving them all that feeling of ennui,
Twittering and flittering and frittering,
Dressing, obsessing, distressing,
Investing and suggesting, and digesting,
Jerking and smerking and perking.
Greeting and treating and eating,
Laughing and quaffing and chaffing,
Eyeing and trying and buying.
All this and some more, like the stream at Lydore
And twas thus that the schoolma'ams came down to Ukiah.

(P. S.—The Printer will print the balance in the next issue.

BOOSTING FOR GOOD ROADS

Supervisor Lawson Represents Mendocino County at Boulevard Banquet

Supervisor Lawson attended the "Boulevard Banquet" at Petaluma last Saturday evening and reports a very lively and interesting meeting. All the supervisors of the various counties interested did not get to attend on account of business arrangements. Plans were made to have the matter thoroughly worked up and have a meeting on June 10th and have all the supervisors present.

The move is an exceedingly popular one and is growing more and more in favor all the time. This section of the state is beginning to realize what the tourist travel means and intends to cater to it. In Southern California the people virtually live off the trourist travel. People that can afford to travel usually have money to spend and are "good spenders." By all means every effort should be made to get a good road from here to Cloverdale and thus secure part of the auto tourists. Mr. Lawson represented the Mendocino county board and C. M. Maunon represented the Business Men's Club. Supervisor Smith was laid up with the rheumatism and could not attend, much to his regret. All the board will make an effort to attend the meeting on June 10th, as they can go down at the close of the regular meeting and will not have to make a special trip.

Dave Squires was down from Eden valley last week on business. He has charge of the Eden valley ranch and is making a success of it.

Supervisor Gives Satisfaction

Supervisor Saxon has been doing some good work of late. The contract for the building of about ten miles of road down the Outlet to Long valley creek has been let and will soon be built. Its Mr. Saxon's desire to complete this new road to Laytonville this year, thus making an easy road to the north and enabling teamsters to haul a good load. He will soon have the Glenn county road completed and a number of other improvements, all of which will stand as a monument to his good work as supervisor of that district. He is making the best supervisor that district has ever had.

Boxing Contest

The Ukiah Athletic Club has arranged a series of good fistic events for next Monday evening and guarantees all a good run for their money. The principal event is a fast contest between Frank George of Oakland, and Sam Nelson of San Francisco. This is expected to be the best fight yet pulled off here. In addition to this there are several good preliminaries and a wrestling match. Remember it is Monday evening, the first evening of the Royal Arch convention.

Coyote Bounty Bill "Pocketed"

Governor Gillett has "pocketed" the Sanford Coyote Bounty Bill which was handled in the Senate by Senator Sanford and in the Assembly by Assembyman Preston. The Governor's excuse for not giving the stock men some means of protection was that the bill was "unconstitutional," the usual dodge or excuse to keep from doing something for the people. The bill provided for a state bounty of $2.50 on every coyote killed providing the county in which the coyote was killed paid an equal amount.

The game of basket ball between the high school teams from this city and Lakeport was honors even. The Ukiah girls won from the Lakeport girls and the Lakeport boys defeated our boys.
